

Domains name registration

What's in name ?

Well, more than you might think - a carefully chosen domain name will be both memorable to your customers and also give the search engines valuable information as to your business name or service.

Help is also at hand, we can assist in choosing the right domain name for your business and also take away any hassle by sourcing and registering it on your behalf.

Then we'll set up the registered name on your new site and support you with any technical issues once your site is live.

Network19 source and supply a suitable .co.uk domain names matched to your business name or service and include up to 5 hosted email addresses.

(Other domain names are also available like .com's, .org's and .net's)
