

Bespoke animation

We can create a bespoke flash animation specifically for your business, telling visitors to your website about your company.

It can appear as the landing page or be embedded into the main area of the website to tell a story about your business.

The combination of quality imagery and movement can provide an eye-catching and powerful marketing tool.

We can also add simple animations in flash to make web pages more interesting, showing off your products and services.

- This above examples of flash animation were developed for separate clients but demonstrate some of the effects we can provide.

- In addition we can convert electronic video footage and display it anywhere on the site as with Tackle and Guns magazines video archive. - Tackle & Guns Magazine Video archive.
