

e-commerce

Network19 are here to help you through the process of getting your online store launched and to make the process as easy as possible.

We supply comprehensive solutions, take care of all the technical elements and deliver the site to you with a dedicated training session. We offer some excellent 'off the shelf' packages and can also provide individually tailored solutions to meet your business needs more closely. Here are some of the features available....

- Website design
- Category tree set up
- User friendly product & order management suite

- Shopping cart configuration
- Secure payment processing systems
- SSL certificates & dedicated IP addresses
- e-marketing tool
- Tax calculator
- Automated order confirmation
- Software training
