

Professional, user friendly sites

Network19 provide websites that look great, are easy to use and have serious business capabilities. If you have never had a website (or if you have one that you can't easily update yourself) then you will quickly appreciate how simple our systems are to use.

We supply sites that are based on a proven content management system (CMS) which makes them easy to update and we can also provide bespoke solutions too.

The following specification list gives a guide to the main features of our websites....

Unlimited Categories

100 Product pages (Expandable)

Built in Text editor

Cut & Paste operation

Fully Secure Shopping cart - 128-Bit Encryption.

Web Pages - You can create, edit, re-name and delete easily.

Unlimited colour schemes

Navigation Links – edit, add and set to appear anywhere in the site.

Interactive Features Settings – Including product search, email capture & contact us.

Site traffic stats can be viewed from control panel.

Customer Database built in for direct marketing campaigns.

Plus many more features.

Bespoke packages can be built according to your needs - contact us to find out more...
